

Wedding Package

~ 150 GUESTS ~

If you are having between approximately 100 - 150 guests, we recommend going up to a triple peak marquee. This gives more room to have a dance floor, bar area and buffet table. However, options such as banquet seating would fit in more guests, or an outside bar, maybe in a pergola would create more space too. Our packages are flexible not only around your guest numbers, but also your style and theme. We have a great selection of lighting, seating and table options as well as a catalogue of other props and accessories as we recognise that it's not just a case of 'one size fits all', but every event is unique, and every style is different. Talk to us today about how we can help you make your day perfect.

Please note: We include Building Consent costs in all of our packages. This is a legal requirement for all temporary structures (marquees) over 100 mtr² in New Zealand. All of our marquees have been made in New Zealand to the highest standard of fire proof, waterproof and wind resistance. We are happy to send you through relevant documentation at your request.

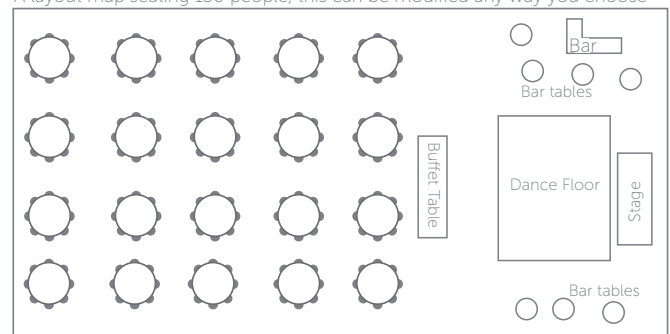

Included in this package:
